

Floor Grinders/Polishers

TG-8 Electric Grinder

TEQ-Lok P/N:G00057
Grinding Head P/N:G00046

Available with either a TEQ-Lok Head or 30/40 Grit diamond grinding head. Low profile allows the TG8 to grind under cabinet toe kicks. Longer wheelbase to maximize the head weight, geared down for lower rpm with increased torque and longer arc swing and operator leverage for very aggressive grinding action. Heavy duty flexible coupler for fast grinding of rough and uneven slab surfaces

FEATURES

- Longer wheelbase to maximize the head weight,
- Fold down handles for easy transport in car trunks
- Large 8" non-marking gray wheels
- 2" & 3" Vacuum dust ports
- TEQ-Lok model offers easy to change tooling
- Welded & Powder coated steel frame
- Full-floating head

IDEAL FOR

- Leveling uneven or curling slabs
- Grinding smooth rough concrete surfaces
- Grinding hard surfaces, feather edging sidewalks and gutters, high and uneven joints and similar surfaces
- Coating removal including epoxies, polyaspartics, urethanes, paints, thinset, cut back adhesives,
- Very aggressive grinding with many tooling options to customize the machine for maximum performance
