

DESCRIPTION:

Engineered for high-performance protection beneath concrete slabs in residential, commercial, and industrial construction.

SUPER TEN+ is specifically designed to deliver reliable moisture, gas, and vapour protection where it matters most.

WHY CHOOSE SUPER TEN+

- Built for Barrier
- Tough and Durable
- Manufactured in Our Toronto Facility
- Always In Stock
- ASTM E-1745 Compliant Vapour Barrier

HIGHLIGHTS

- High-Performance Under Slab Vapour Barrier
- Available in 10 mil & 15 mil
- ASTM E1745 Compliance (Class A, B & C)
- Blue Opaque Film
- Made in Canada

ENVIROMENTAL STATEMENT

SUPER TEN+ is manufactured in compliance with environmental regulations, contains no VOCs, and meets strict standards for heavy metal content— supporting safer and healthier building environments.

KEY FEATURES

Moisture Control: Blocks ground moisture intrusion protecting concrete slab ensuring that it helps maintain compliant humidity levels.

Gas Barrier Protection: Effective against soil gas emissions in environmentally sensitive areas.

Easy Installation: Specially folded for fast placement over tamped grade.

Clear Identification: Thickness printed on each roll for on-site visibility.

Improved Indoor Air Quality: Mitigates risk of fungus, mildew, and mold growth.

Trusted Durability: Long term durability withstands foot traffic, cold weather. Designed for installation over rough aggregate jobsite conditions.

Wider Rolls = Fewer Seams: 14' wide rolls reduce installation time and overlapped seams.

ASTM Compliance: Meets or exceeds E1745 Class A, B, and C standards - The highest standard for puncture resistance and water permeance.

Made in Canada:

Manufactured using only locally sourced materials to ensure supply stability.

APPLICATION:

- Under Concrete Slabs
- Crawlspace & Basements
- Renovation & Restoration Projects
- Commercial & Industrial Slab Installations

ACCESSORIES

- Vapour Barrier Seaming Tape
- Seals overlaps and seams for full coverage
- Prevents air and moisture leakage
- Maintains continuous moisture and gas barrier
- 4" widths and 180' lengths/Roll
