

Speed Striker™ 2.0

SCAN FOR VIDEO

- Forward mounting 9" (229 mm) hole spacing is compatible with most competitor power screed blades
- Less labor intensive than a traditional hand screed
- Consolidates concrete, resulting in a stronger slab
- Excellent vibration dampening so little vibration is passed to operator
- Throttle lever does not require constant contact
- Direct drive shaft for extended durability
- Adjustable handlebar
- Bolt-on kickstand keeps unit upright when not in-use
- 4-stroke Honda® GX35 engine

9" (229 mm) Hole Spacing
