PEAGRAVL™

Description

PIVIT PEAGRAVL™ is composed of natural, smooth, round stones with an average diameter of 10 mm (3/8").

Product Features

- Round and smooth particle shape
- Can be used to extend repair mortars (PIVIT PATCHFX)

Uses

- Patios, decks, garden beds, borders, playgrounds, pathways, walking trails
- Dug runs, pool and pond surroundings
- Minor flat roof repairs

Surface Preparation

Excavate soil from the desired location and remove any loose or soft material. Install garden fabric over the prepared area to increase resistance to plant growth and insects.

Application

Spread PEAGRAVL™ over the desired area and level using a rake or straightedge. If a solid base is desired, compact using a tamper or plate compactor.

Yield

Not Compacted: 0.019 m^3 (0.67 ft^3) or 60 cm x 30 cm x 10 cm (24 in x 12 in x 4 in)

Packaging

30 kg (66 lb) bag

Storage & Shelf Life

Store bags in a dry, covered area protected from moisture. Product has an indefinite shelf life when stored correctly.

Safety

Read the Safety Data Sheet before using. DANGER: Causes damage to lungs through prolonged or repeated exposure. Wear appropriate safety glasses, gloves and dust mask/respirator. Do not breathe dust. Wash hands and exposed skin thoroughly after handling. Keep out of reach of children.
