

AVOID COSTLY MISTAKES WITH PROFESSIONAL ADVICE

Vieira Concrete Supplies is not just a store. Many of our staff have on-site experience with our sealer products and are able to answer questions about your specific project. We can also help you with options for sealer projects gone wrong.

Our products are chosen to be as user-friendly as possible with new slow-dry formulations that resist bubbling and turning white.

If you prefer to hire a contractor we can also refer you to a professional

Vieira Concrete Supplies specializes in products for decorative concrete including stamped concrete, exposed aggregate, concrete countertops, epoxies, faux interior floor finishes, polished concrete, carved concrete, stains and dyes. Visit our website or come see us at one of our locations for more information.

STEP 1 SPOT CLEANING

Rust Remover

- Removes stubborn rust stains from paving stones and concrete
- No Fumes or odour
- Fast working and simple to use
- Apply, scrub and rinse

Citrus Oil Degreaser

- Removes oil and grease stains from paving stones and concrete
- A unique blend of citrus extracts
- No fumes – Citrus scented
- Simple to use – apply, scrub and rinse

Stripper

- Removes paint, graffiti, rubber tar and chewing gum from paving stones and concrete
- Fast working, simple to use
- Apply, scrub and rinse

STEP 2 SURFACE PREP

- Essential pre-sealing surface preparation cleaner ensures vibrant colours and proper sealer to surface bonding.
- Removes efflorescence, dirt and tire tracks from paving stones and concrete
- Highly concentrated
- Simple to use – apply, scrub rinse

STEP 3 APPLY SEALER

Concrete Sealer – Acetone Free

- Recommended for stamped concrete and protects against surface damage
- Premium Formulation, high acrylic solids
- Colour enhancing wet look, high gloss
- Apply with roller or spray
- New acetone free formulation as of 2015 for user-friendly application – resists bubbles and whiting

Paving Stone Sealer – Acetone Free

- Thicker version of concrete sealer recommended for porous concrete surfaces such as interlocking brick and exposed aggregate concrete.

Low Gloss Penetrating Sealer

- Wet look yet low gloss
- One coat application
- Low slip factor
- Best protection against oil, salt and dirt
- Restores and enhances colour
- Will not peel and wears evenly
- Ideal for pool decks and sloped driveways
- Use only on bare concrete

Many other sealers in stock.

Sprayers, rollers, brushes and trays available.
